

## **Metro Area Golf Courses** *(area code 210 unless otherwise indicated)*

The list of golf courses in the Alamo City and the surrounding area becomes more impressive with each passing year. We may have started way behind those other guys, but we're catching up fast. And in comparison, San Antonio is the absolute best golf value in America. From drives off elevated tees to play in long-ago played out rock quarries, professionals and duffers alike will find courses to their liking. And combined with chamber-like weather, where the sun shines 300 days a year, course-work awaits the frequent and occasional players.
